Fratellone Family Chiropractic: Wellness for the entire family

Dr. Danielle Fratellone is a chiropractor serving Pleasanton and the surrounding area. She and the rest of her welcoming team at Fratellone Family Chiropractic, FFC, are committed to providing chiropractic solutions and cutting-edge techniques to address your unique condition and needs. Dr. Fratellone specializes in pediatrics and perinatal care with the Webster technique addressing wellness for the entire family.

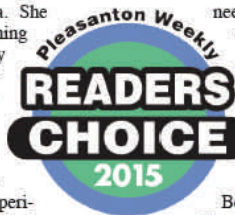

Chiropractic care is more than just making the pain disappear. It is about learning, understanding and taking care of your body to improve your quality of life. At FFC, we aim to educate our patients about chiropractic and other natural solutions to common health problems. At your first visit to Fratellone Family Chiropractic, Dr. Fratellone will explain how chiropractic care works and give

you a full evaluation to see if our chiropractic solutions are a good fit to address your needs. You're not just a collection of symptoms to us.

With compassion, Danielle Fratellone, DC, educates her patients on how to be conscious of their body. She reminds them that the brain and body speak to one another in the healing process.

Before adjusting each patient, Dr. Fratellone gives a light massage, so that her patients are relaxed and can hold their adjustment. Dr. Fratellone is often commended on her professionalism, friendliness, and nurturing nature.

Danielle's credentials include graduating from Palmer Chiropractic College West in San Jose, CA and practicing in Pleasanton since January of 2012. Dr. Fratellone believes in giving back to her community, and keeping up the level of education needed

FRATELLONE FAMILY CHIROPRACTIC

Dr. Danielle Fratellone is often commended on her professionalism, friendliness, and nurturing nature. She specializes in pediatrics and perinatal care with the Webster technique.

that demands changes in chiropractic care. She is also a Patriot Project Doc – providing free chiropractic care to our service men and women at Camp Parks in Dublin. Learn more at www.patriot-project.org.

One of Danielle's passions is using the Webster technique: a specific pelvic analysis and adjustment for pregnant women that

includes gentle massage. Mothers-to-be find her relaxing hands-on-approach to be soothing, and effective.

If you have not been to a chiropractor before and want to find out more, please call Fratellone Family Chiropractic at 925-484-2558 to receive the answers to your questions from our experienced team.
